

PAOLO BURATO FOTOGRAFO
PORTFOLIO 2024

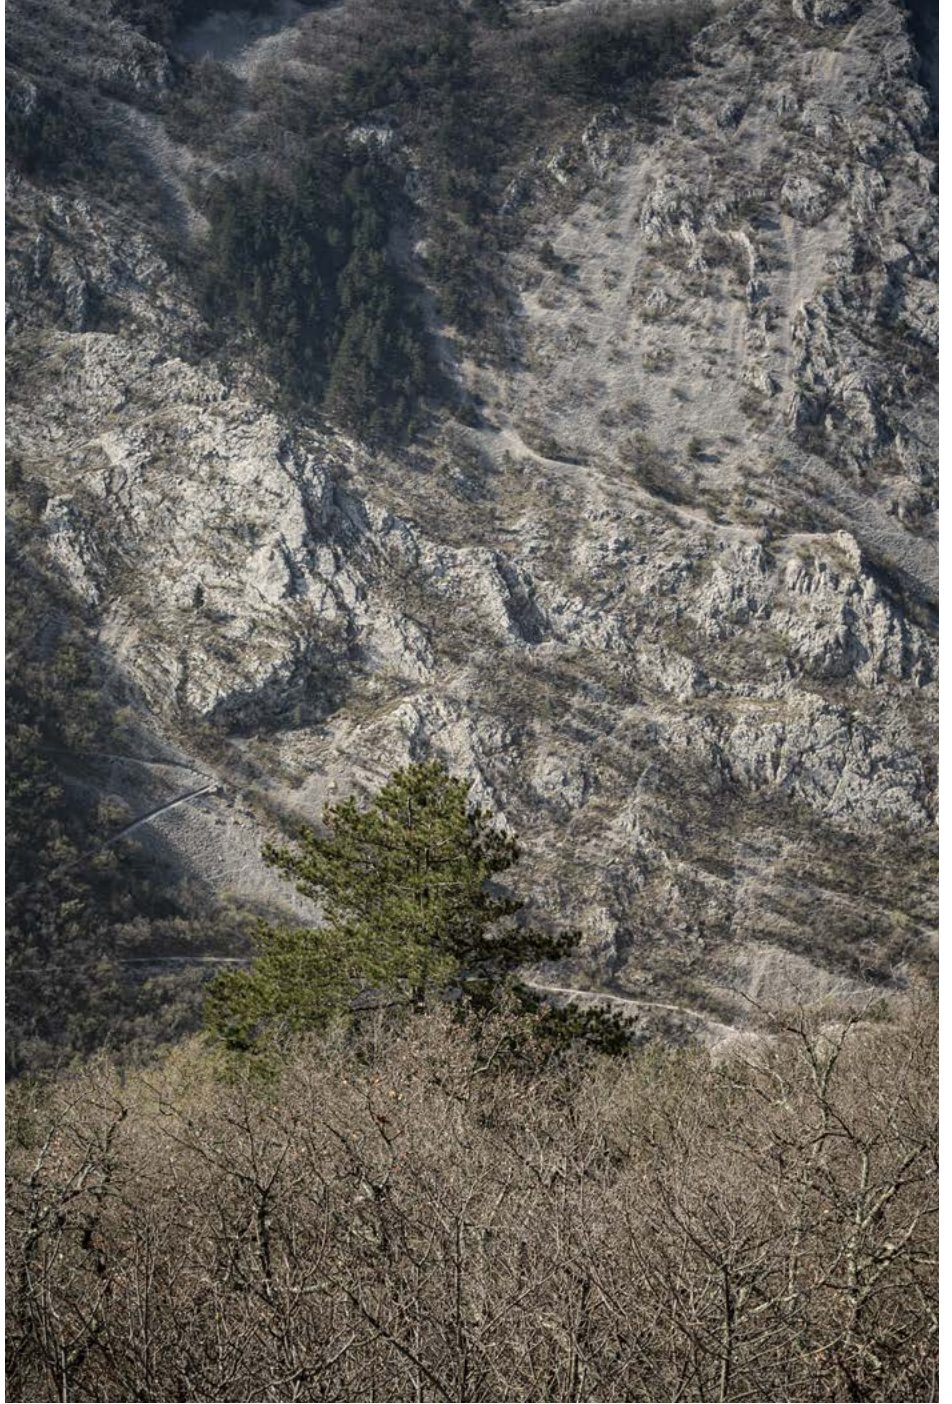

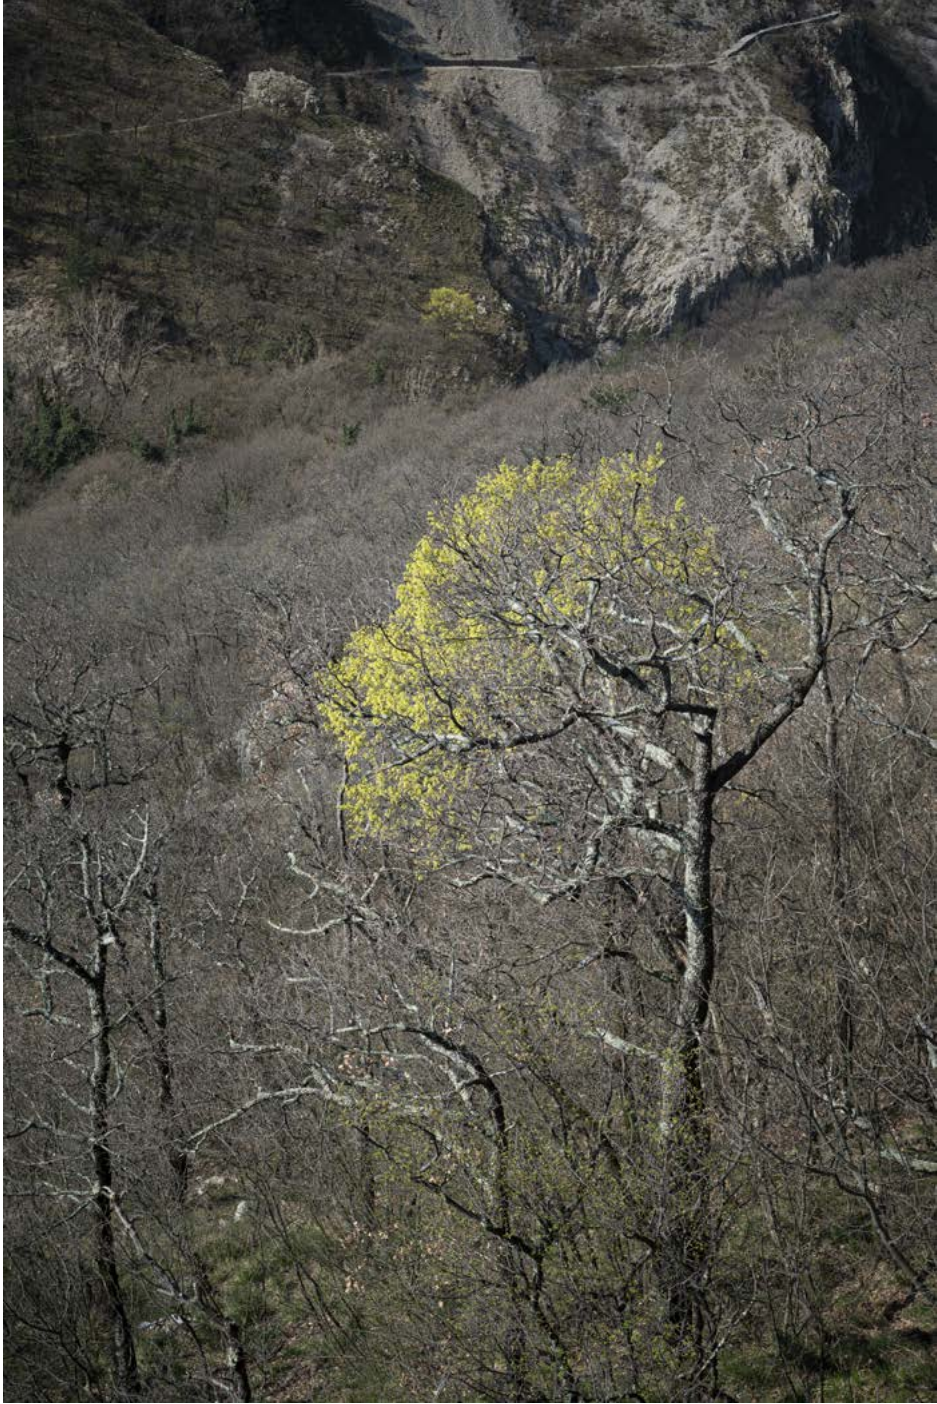

Per una rinascita serve spazio.

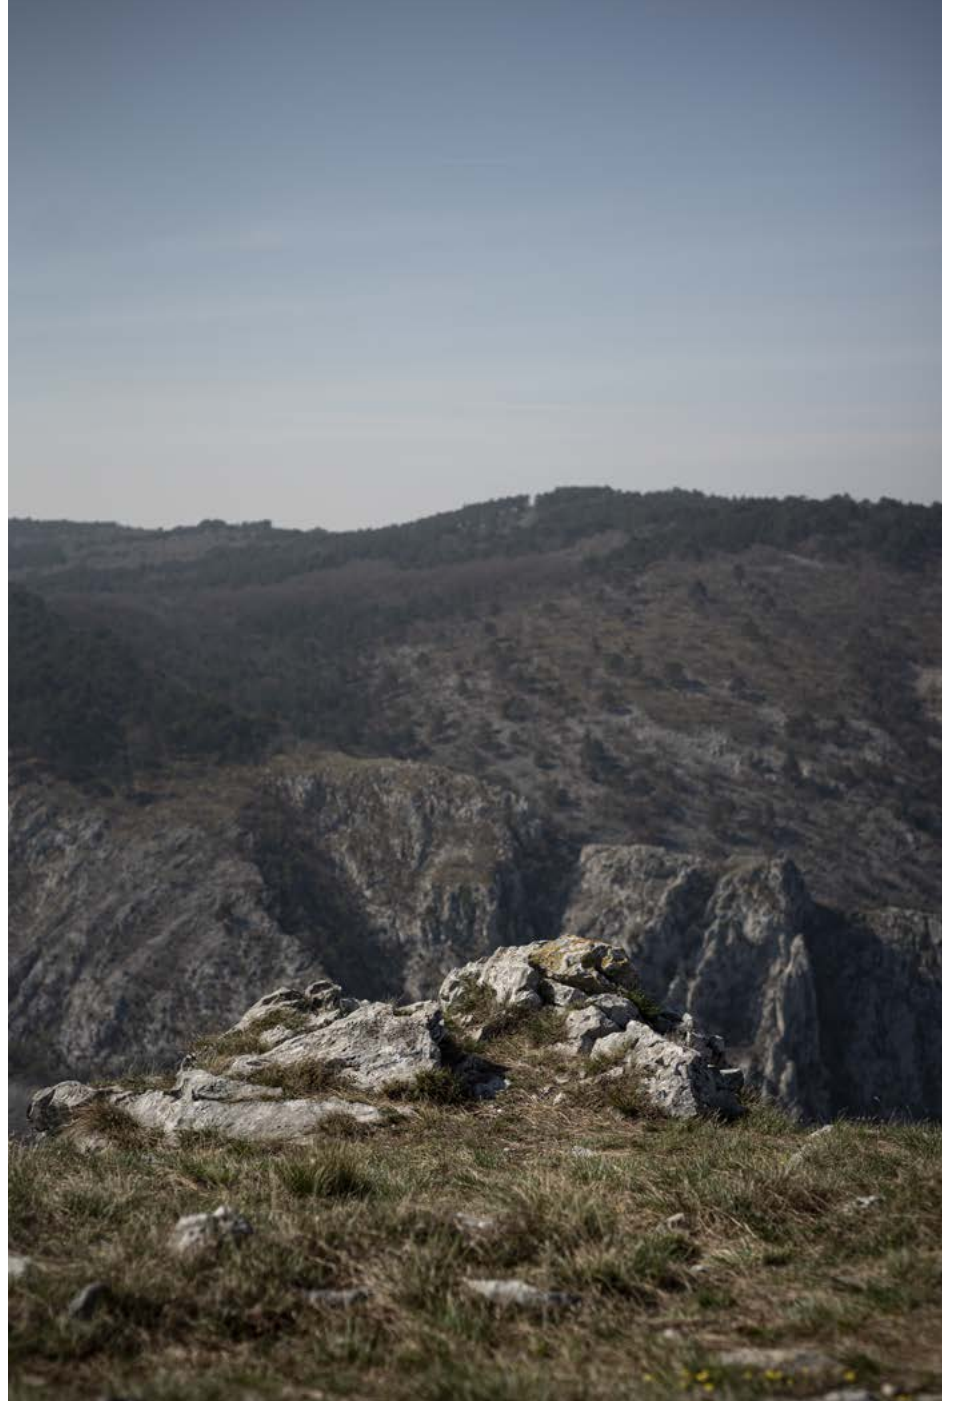

Come le piante spoglie lasciano posto a nuove foglie e fiori
così anche noi per rifiorire abbiamo bisogno di togliere tutto ciò
che non serve per creare vuoto fertile.

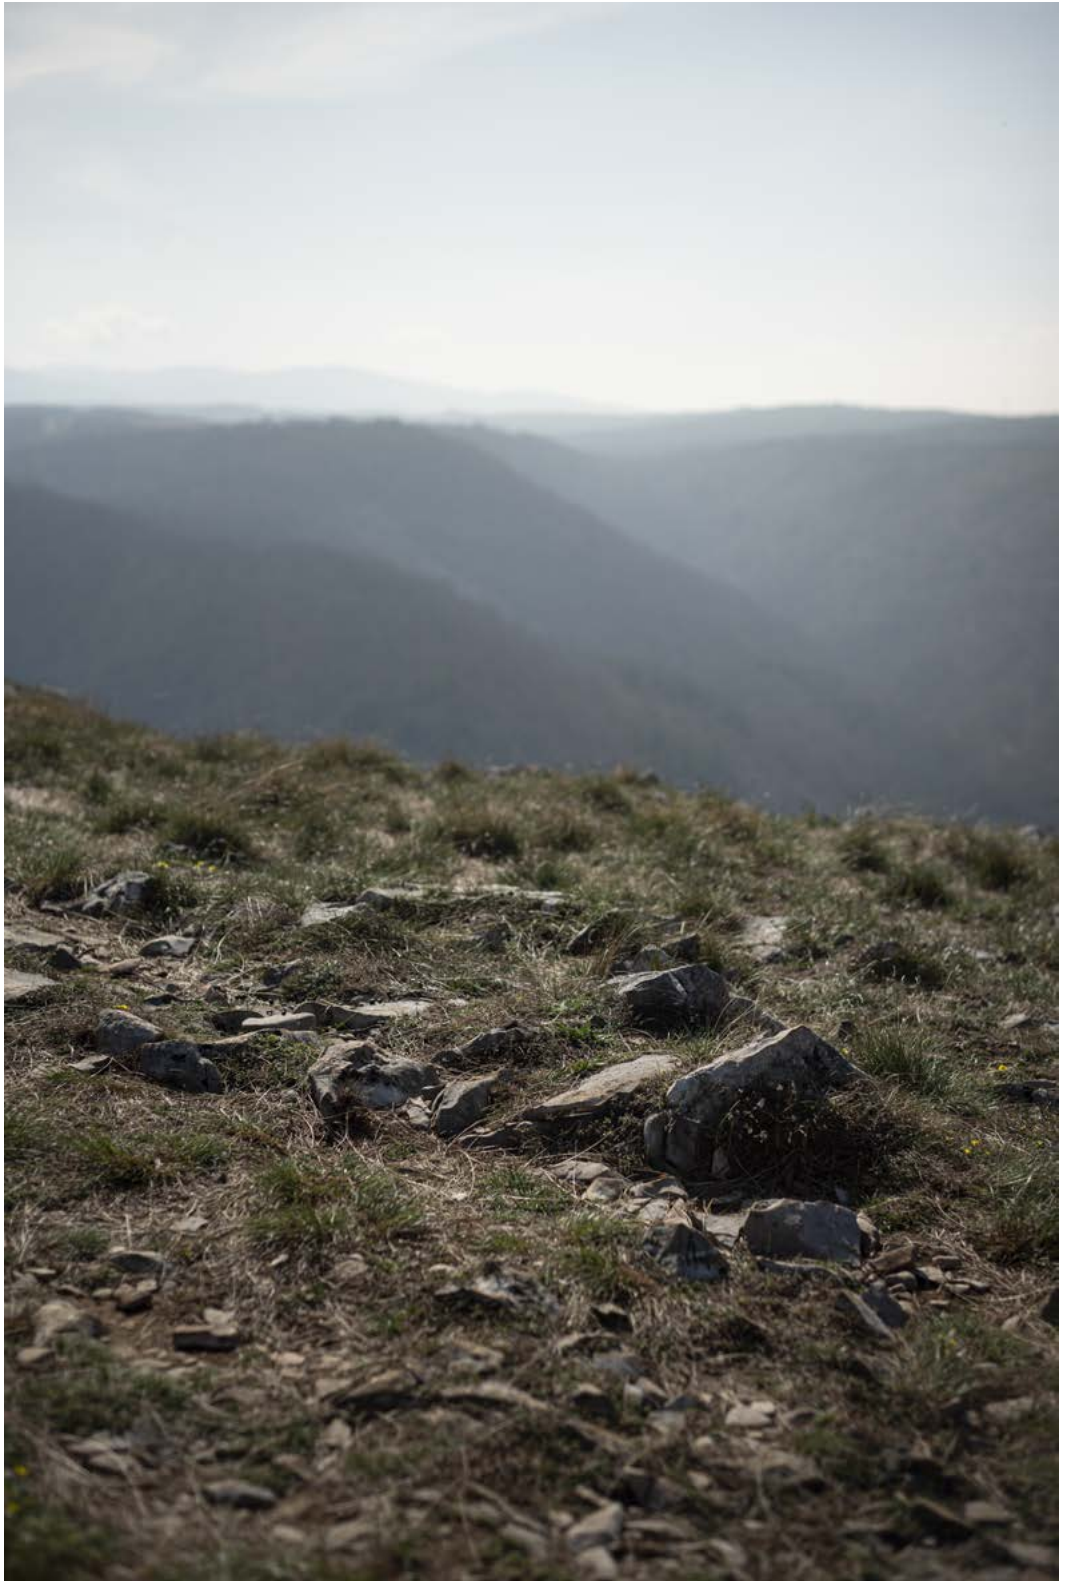

L'interazione di luce ed ombra, chiaro e scuro si fa
energia generatrice dell'ordine della natura di cui facciamo parte
e darà nuova possibilità di rinascita.
